PRODUCT DATA

DURACOOOL ROOF WASH

PRODUCT DESCRIPTION:

Duracool Roof Wash is a coating compatible cleaner for use with Duracool roof coatings.

RECOMMENDED USES:

An excellent cleaner for preparing surfaces for roof coating.

PRODUCT FEATURES:

Roof wash is fully compatible with Duracool products.
Environmentally safe, non-toxic; VOC compliant.

SURFACE PREPARATION:

Duracool Roof Wash is used to clean all surfaces that need to be coated. It will remove oxidation, dirt and debris. High-pressure water washing with Duracool Roof wash is required. Previously present coating must be checked for good adhesion. Any loosely adhering coating must be removed and bare surface must be prepared and cleaned and checked for compatibility, before coating.

APPLICATION PROCEDURE:

Duracool Roof Wash is concentrated formula that needs to be diluted with ratios 10 gallons of water to 1 gallon of roof wash. Use with garden pump sprayer or chemical injector on pressure washer.

1. Remove loose dirt and the debris
2. Wet entire surface with roof wash.
3. Pressure wash and rinse completely.

AVAILABLE: 5 gallons buckets
